

Digital Temperature Controller

SPECIFICATION

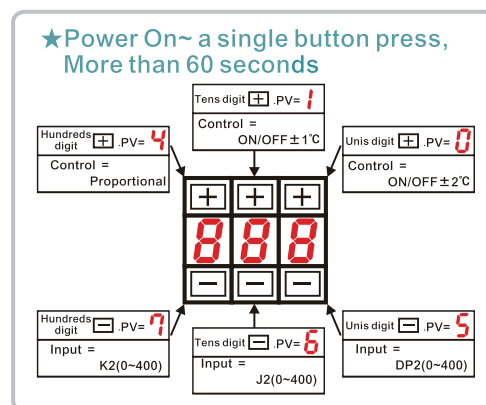

Input	Type of Input	TC(K, J) RTD(PT100Ω) Linear (4-20mA, 1-5V)
Output	Relay/ Relay Output, SSR/ Voltage Output, 4-20mA/ Linear Output	Contact, SPDT, 3A/240VAC Voltage Pulse, 20VDC/20mA 4~20mA
Alarm	Alarm Mode	6 Alarm Mode
General	Power Supply	85~265VAC
Specifications	Ambient Temperature	-25~85°C
	Ambient Humidity	50~5%RH(Condensing)

(1) Power On Display:
(Input / Unit / Input Range)

(2) Change Parameter Description

FEATURE

- Alarm option.
- Four input and three output types.
- Rugged, cost-effective and easy to operate.
- ON-OFF or Proportional selectable control.
- Offer various display and setting models to satisfy different demands.

Thermocouples
